

fenyaSoft

Automate, Integrate, Innovate

Welcome to fenyaSoft

We are a software company which specializes in the development and delivery of solutions which automate business process within ERP, CRM and SCM systems.

Our focus is the provision of business solutions that integrate into:

- Sage 50cloud (Pastel Partner/Express),
- Sage One (Sage Business Cloud Accounting),
- Sage Evolution (Sage 200),
- JD Edward and
- Microsoft Dynamics GP.
- 3rd Party systems and E-commerce platforms

Warehouse Management

We offer a fully integrated warehouse management system for:

- Sage 50cloud (Pastel Partner/Express),
- Sage One (Sage Business Cloud Accounting),
- Sage Evolution (Sage 200) and
- Microsoft Dynamics GP.

Our WMS incorporates the benefits of barcode scanning and direct ERP integration to help your business effectively manage stock, reduce stock loss, and eliminate human error. Using mobile barcode scanners, FenyaWM enables you to scan your stock in, around and out of your warehouse.

EDI

Electronic Data Interchange (EDI) is the electronic interchange of business information using a standardized format; a process which a company can use to send information to another company, organization, or platform electronically.

Our EDI solution is directly integrated into Sage 50cloud (Pastel Partner/Express), Sage One (Sage Business Cloud Accounting) and Sage Evolution (Sage 200) for EDI Purchase Orders, Invoices and more.

Field Sales

We offer a multitude of field sales applications that allow you, your reps and your customers to place orders electronically and import them directly into your ERP.

FMCG

The OrderPad is a cloud based order & route management system which then integrates into Sage 50c, Sage 200 and JD Edwards. Designed for the distribution and supply chain environment.

Custom Development

We provide a bespoke app development service for any requirements that may be unique to a specific business.
