

# EDI FOR ECOMMERCE

Keep your data moving accurately, securely, and in real time.

## WHAT WE DO

We automate the exchange of business documents between systems, including:

- Customer orders
- Pricing updates
- Inventory updates including stock on hand and product details

All without spreadsheets or manual capturing as FenyaEDI provides live, hands-free data synchronisation.

## WHY EDI FOR ECOMMERCE?

Manual order processing slows you down and creates costly errors. Our EDI service helps you:

- Process orders faster
- Reduce data entry mistakes
- Scale operations without increasing admin workload

## SUPPORTED PARTNERS

## WHO IT'S FOR

- Online retailers selling on multiple platforms
- eCommerce businesses scaling fulfilment operations
- Companies looking to eliminate manual order processing

## CONNECT FASTER. TRADE SMARTER. SCALE CONFIDENTLY.

### KEY BENEFITS

01

#### Seamless Platform Integration

Connects with leading eCommerce platforms such as WooCommerce, Shopify, Takealot and Amazon.

02

#### Automated Order Flow

Orders move instantly from customer to fulfilment—no human intervention.

03

#### Real-Time Visibility

Track orders through our EDI dashboard.

04

#### Secure & Reliable

Encrypted data exchange for added security.

## BUILT FOR GROWTH

Our EDI service is designed to grow with your business:

- Add new trading partners easily
- Support high order volumes
- Custom mappings for unique workflows if required
- Cloud-based for flexibility and uptime
