Automate, Integrate, Innovate

FENYA CLOUD SOLUTIONS (FCS)

FCS is a powerful, cloud-based warehouse and inventory management solution that integrates directly with your ERP. Designed for growing businesses with complex inventory needs, FCS gives you real-time visibility, improved stock accuracy, and streamlined warehouse operations.

WHY CHOOSE FENYA CLOUD SOLUTIONS?

Managing inventory across multiple warehouses doesn't need to be complex. FCS simplifies stock control, reduces human error, and ensures full traceability—so you can focus on running and growing your business.

Key Benefits

- Real-time ERP integration
- Reduced stock losses and discrepancies
- Full stock traceability and reporting
- Efficient stock movements across locations

Flexible Pricing Options

FCS offers scalable pricing to suit your business size, with monthly, quarterly, or annual options available.

REAL-TIME ERP **INTEGRATION**

Seamless synchronisation with your ERP — no duplication, no delays.

WAREHOUSE & BIN **MANAGEMENT**

Full visibility and control of stock across warehouses, bins, and locations.

ADVANCED STOCK **CONTROL**

Accurate stock transfers, stock takes, and inventory adjustments with complete audit trails.

BATCH, LOT & SERIAL **TRACKING**

End-to-end traceability with expiry management, FIFO control, and compliance-ready reporting.

INTER-BRANCH **TRANSFERS** (IBT)

Accurate stock transfers, stock takes, and inventory adjustments with complete audit trails.

ORDER & RECEIVING **AUTOMATION**

Streamlined sales, purchasing, invoicing, and returns — fully integrated with your ERP.
